Product & Growth

Sector-53, Noida · +91 9990708880 · jayitasharma111@gmail.com · [LinkedIn](#) · [Portfolio](#)

PROFILE SUMMARY

Product & Growth leader specializing in aggregator and marketplace platforms — with a track record spanning 0→1 launches and scaled operations. Drove 500K+ incremental monthly organic visits at India's leading tractor marketplace; subsequently built an AI tools aggregator from scratch, reaching 250+ DAU and 3 enterprise clients within the first month of launch. Brings hands-on AI automation capability — live n8n agents and workflows in production across publishing, outreach, and lead generation. Combines discovery UX and platform architecture expertise with deep growth instincts across SEO, conversion, and acquisition.

PROFESSIONAL EXPERIENCE

Product Lead / Consultant — ThatsMyAI March 2024 – Present

AI tools aggregator platform enabling users to discover, compare, and adopt AI products across categories.

- Architected platform taxonomy and information architecture for a marketplace of 1,000+ AI tools across 30+ categories, driving 250+ DAU and 3 enterprise client onboards within the first month of launch.
- Owned end-to-end product requirements for core marketplace modules — tool listing systems, enquiry workflows, dynamic navigation, and discovery UX — from spec to production.
- Built an agentic LinkedIn content engine using n8n that autonomously ingests real-time news feeds, generates contextual posts, and manages end-to-end publishing — zero manual intervention required.
- Designed RSS-to-publish automation workflows enabling continuous AI news coverage, reducing manual content operations and improving platform freshness and organic visibility.
- Defined scalable platform architecture capable of supporting multi-category expansion, third-party integrations, and growing tool inventory without structural rework.

Product & Automation Consultant — Grovita May 2025 – Present

Adaptive AI-powered EdTech platform for JEE aspirants, targeting India's 13+ lakh annual test-takers.

- Defined end-to-end product requirements for a three-tier adaptive AI rule engine spanning diagnostic screening, real-time performance recalibration, and mastery-based topic progression — platform is live and in active use.
- Designed a 6-stage personalized learning journey (Screening → Learner Profile → Topic Tagging → Adaptive Practice → Session Recalibration → Subject Mastery) with continuous AI-driven recalibration after every session.
- Specified 5 core product modules: Adaptive Question Engine, Confidence Mode, AI Analytics Dashboard, Smart Study Planner, and a gamification system (XP, badges, streaks) — covering student, teacher, and parent-facing experiences.
- Contributed to B2B institutional go-to-market strategy, including a white-label product offering for institutes; platform currently in active deal negotiation with a Thailand university for adoption across the China market.

Content Team Lead — Tractor Junction July 2022 – May 2024

India's leading digital aggregator for buying, selling, financing, insuring, and servicing tractors and farm equipment (3.2M monthly visitors).

- Led and upskilled a content team of 7, driving 17% organic traffic growth — adding 500K+ incremental monthly visits — through an SEO-first content strategy built on keyword gap analysis and search intent mapping via SEMrush and Google Search Console.
- Collaborated with engineering to define requirements for an in-house CMS, reducing content errors by 40% and cutting publishing turnaround time by 60% — directly improving content velocity and platform reliability at scale.
- Developed and optimized 100+ conversion-oriented product descriptions across tractors, trucks, and bikes, balancing technical accuracy with SEO and acquisition goals.

- Implemented a content quality assurance framework ensuring brand consistency and accuracy across all platform pages, supporting operations at 3.2M monthly visitor scale.
